

# The Freelance Client Kit

## Start Here

---

Welcome — and thank you for buying the Freelance Client Kit.

This kit exists to solve one problem: **most freelancers lose money not because their work is bad, but because their client process is improvised.** Vague proposals, missing kickoff steps, awkward money conversations, scope creep with no script to push back — each one quietly costs you hours and dollars.

Everything in this kit is a plug-and-play system. Copy it, adapt the wording to your voice, and use it on your very next client.

## What's Inside

---

| # | Document                      | Use it when...                            |
|---|-------------------------------|-------------------------------------------|
| 1 | Client Onboarding Checklist   | A new client says “yes”                   |
| 2 | Discovery Call Script         | You're on a first call with a prospect    |
| 3 | Winning Proposal Template     | You're quoting a project                  |
| 4 | Contract Essentials Checklist | Before you sign anything                  |
| 5 | 12 Client Email Scripts       | Any awkward or high-stakes client email   |
| 6 | Invoice & Payment Terms Guide | Setting up billing that gets paid on time |
| 7 | Weekly Status Update Template | Keeping clients calm mid-project          |
| 8 | Rate-Setting Worksheet        | Deciding (or raising) your prices         |

## How to Get Results in the Next 7 Days

---

1. **Today:** Fill out the Rate-Setting Worksheet (#8). Most freelancers discover they're undercharging by 20–40%.
2. **Before your next prospect call:** Read the Discovery Call Script (#2) once. You don't need to memorize it — just follow the five phases.
3. **On your next quote:** Use the Proposal Template (#3) verbatim. It's structured to sell the outcome, not the hours.
4. **When they say yes:** Run the Onboarding Checklist (#1) top to bottom. This is where you look more professional than 90% of your competition.
5. **Every Friday:** Send the Weekly Status Update (#7). It takes 5 minutes and eliminates the “just checking in...” emails from clients.

## Formats

---

Every document comes in two formats:

- **PDF** — polished, printable, read-anywhere.
- **Markdown (.md)** — plain text you can open in any editor, paste into Notion, Google Docs, or your email client, and edit freely.

## License

---

Your purchase includes a **single-user commercial license**: use these materials in your own freelance business, adapt them, and send the adapted documents to your clients. You may not resell, redistribute, or share the kit itself.
